# Partner for impact

## Mobilising Generosity, Shaping the Future

The Philanthropy Australia Conference 2026 will be a pivotal moment for the for-purpose sector. One that calls for greater giving, bold ideas and collective action.

## Why this conference? Why now?

Australia's generous spirit places us at a powerful crossroads. Inequality is widening. Climate risks are accelerating. Communities are calling for connection, courage and accountability.

Our generosity must meet the urgency of this moment.

That's why we need the Philanthropy Australia Conference to unite the sector, so that together we can:

- Harness momentum
- Sharpen our practice and lift our ambitions
- Focus our giving
- Strengthen the ecosystem that makes impact possible.

We invite partners across the nation to rise with us, walking alongside this movement, amplifying its momentum and helping to shape the future of giving.

***Now is the time to act with intent. Now is the time to lead. Now is the time to strengthen giving. Let's rise to the moment.***

# What past delegates say

Feedback from the Philanthropy Australia Conference 2024 reflects overwhelmingly positive experiences from both first-time delegates and long-standing attendees:

“My first conference and I really enjoyed it – congratulations on the success! A huge effort and impressive with how many conversations that were facilitated in such a short period of time. I wish I could be in more places at once.”

“My first PA conference, and a new NFP to the sector. I was inspired by the optimism and goodwill in the room, the commitment to making a real difference, and the intelligent ways the sector is thinking about growing its effectiveness and impact.”

“PA attendees were the most friendly, networked group of people regardless of whether they were funders or fundees. I have attended many different conferences in my time, but this is what makes PA unique.”

“I am so glad that I attended this year and will recommend that we send additional delegates next year.”

“Great to connect with other funders. Enjoyed the big picture thinking and inspiration.”
